Version History

<u>Version</u>	<u>Date</u>	<u>By</u>	<u>Change Summary</u>
0.1	02/11/2018	Yudy Yunardy	Initial version
0.2	08/11/2018	Yudy Yunardy	- Revision on multiple items based on review - Remove parking fee on all screen (will be handled manually) - Add recommendation price and request price in seller my stock and stock list - Add button to lock auction data in auction list - Remove upload BAST from item handover - Add print/generate BAST report in item handover - Add page AP seller payment update
0.3	13/11/2018	Yudy Yunardy	- Revision on multiple items based on review - Add import excel button for pickup request - Add condition and STNK availability for pickup request - Add PIC, phone, PIC KTP Number for pickup request
0.4	15/11/2018	Yudy Yunardy	- Revision on multiple items based on review - Remove seller ID in Permintaan Penjemputan BPKB - Remove delivery word in “Car Pickup Delivery Order” and “BPKB Pickup Delivery Order” to be “Car Pickup Order” and “BPKB Pickup Order”
1.0	22/11/2018	Yudy Yunardy	- Revision on multiple items based on review - Location code in stock and auction id becomes 2 letter from J becomes JK, from B becomes BD - License plate format change with no space: B1234AGH enforce by system without space - Create admin panel for grading impact based on inspection result. Paint thickness is not calculated. Column: Item, Defect, Level, Score Impact. Car will have initial score, reduce score for every defect. Transform final score into final grade - Inspection: for salvage/accident car (wrecked), no need inspection, directly put grade F (lowest/accident grade) - toggle hide/show column for stock/buyer/seller list: mimic windows explorer, right click at the header then choose column to show/hide - Show all in stock aging, but able to filter aging date greater than x days - Cannot lock auction if there is still unset lane in auction item - Cannot start unlock auction - when lane out, it becomes empty lot, not move up all

<u>Version</u>	<u>Date</u>	<u>By</u>	<u>Change Summary</u>
			- when have no free NIPL: show button Join Auction when have free NIPL: show button Live Bid and Proxy Bid before auction session start, Live Bid button is disabled after auction session start, Live Bid button enabled, when clicked, go to current active car bid - free NIPL: have NIPL and not used in proxy bid - add timestamp or version on document - when locked: FINAL - before locked: update dd/mm/yyyy hh:mm - Create catalogue report, column: no lot, no pol, tipe, tahun, warna, grade, harga dasar, keterangan - add print catalog button in auction list - from car detail click bid will open new tab (not replace current tab) - add 1 tombol to download auction comprehensive data per auction session - add paid and balance column in return deposit and return premium deposit screen, paid is for returned amount, and balance is the remaining un-returned amount - in seller management list, when click seller id go to seller profile - add total buyer count along with bank subtotal in return deposit screen - delete total unpaid return deposit screen - AP seller list screen categorized by auction event, can filter by seller or seller ID - In AP seller payment update, when user click invoice number it will go to invoice detail report - Delete second VAT and PPh column in AP Seller create invoice screen - Add filter button for SOLD/UNSOLD status in AR seller list - In AR Buyer List if payment received by bank's disbursement system, if remaining balance >=0 then status automatically changed to PAID else UNPAID - In VA List Report, add auction event, VA issued date, and VA expired date column - In unperformed buyer list screen, categorized by auction event, add total in received amount column - In Price difference, changed back model type into separate column of model and type - In Set car recommendation screen, make grid list of one column for list of auction item - Delete all information related to JBA

<u>Version</u>	<u>Date</u>	<u>By</u>	<u>Change Summary</u>
1.1	03/01/2019	Yudy Yunardy	• Add Product and Segment column in Model Type Master screen • Remove branch tab in Seller Profile and Seller Management • Add one screen to show Seller Branch list after Seller list screen in Seller Management and Seller Profile
1.2	08/01/2019	Yudy Yunardy	• Add Back button in Set Proxy-bid screen (2.2.1.2.6) • Add Inv No column in buyer transactions (2.4.1.2.8) • Add confirm price, move download button to stock list, in My Stock Seller (2.4.2.2.6) • Add branch code in branch master (2.5.3.2.1) • Modify and explain stock ID numbering logic in stock sticker (2.1.1.2.4) • Modify branch ID to branch name, move download button from my stock to stock list, in stock list (2.1.3.2.4) • Add branch name input, modify model and type input in basic car data (2.1.1.2.6) • Modify paint thickness measurement into micro mm (“mil”) in inspection result (2.1.2.2.3)
1.3	10/01/2019	Yudy Yunardy	• Remove buyer (already represented by winner column) in stock list (2.1.3.2.4) • Add seller name in basic car data (2.1.1.2.6) • Elaborate swipe menu in android home page (2.2.1.2.1)
1.4	15/01/2019	Yudy Yunardy	• Add password filed in Buyer Registration (2.4.1.2.1) • Remove save button, as data automatically saved on change event, add notification in upper right if data has been saved (2.1.3.2.5)
1.5	17/01/2019	Yudy Yunardy	• Add filter button in inspector home (2.1.2.2.2) • Remove car image in inspection result, add Maker, add shortcut in condition check (2.1.2.2.3) • Change add empty lot into cancel lot button in set lot screen (2.1.3.2.6)
1.6	18/01/2019	Yudy Yunardy	• Add role management menu in user management section in admin home (2.5.1.2.2) • Add My Page menu in home page and home page Android (2.2.1.2.1)
1.6.1	21/01/2019	Yudy Yunardy	• Changes from text input into pulldown menu for exterior color, transmission, STNK, BPKB, Faktur, KEUR in Basic Car Data (2.1.1.2.6)
1.7	22/01/2019	Yudy Yunardy	• Add error message for username and password in Buyer Login (2.4.1.2.2) and explanation about agree check box and captcha

<u>Version</u>	<u>Date</u>	<u>By</u>	<u>Change Summary</u>
			- Minor changes in Android inspector login, shown that username and password are editable field - Add comment in Buyer login (2.4.1.2.2) - Add error message in field name, password, email and handphone, add validation in action control for submit button in buyer registration (2.4.1.2.1)
1.8	22/01/2019	Yudy Yunardy	Add and complete field description in pickup request, add action control in pickup request BPKB (2.1.1.2.1)
1.9	28/01/2019	Yudy Yunardy	- Change all screen to BAHASA - Add branch in create seller (2.5.5.2.6) - Remove seller ID and buyer ID in all related screen
2.0	29/01/2019	Yudy Yunardy	- Add Pabrikan Tipe Model to each item in rekomendasi mobil in Catalogue (2.2.1.2.1) - Add Search field in pencarian mobil section in Catalogue (2.2.1.2.1) - Synchronize between seller registration screen and create seller screen - Add Auction Catalogue Summary Report (2.2.1.2.2) - Add Auction Recommendations Report (2.2.1.2.3) - Add Auction by Category Report (2.2.1.2.5)
2.1	31/01/2019	Yudy Yunardy	- Synchronize between Seller Create (2.5.5.2.6) and Seller Registration (2.4.2.2.1) screen. - Delete all duplicate screen - Modify screen in Buyer Detail (2.2.2.2.1) to reflect changes in Bahasa both regular and premium buyer
2.2	01/02/2019	Yudy Yunardy	- Add error messages in Create Buyer (2.5.5.2.2) - Add Ganti Kata sandi button and popup window in Edit Buyer (2.5.5.2.3) - Add notes and filter in Catalogue (Home page) section Pencarian Mobil in Catalogue (2.2.1.2.1) - Add filter and screen in Web and Android Auction Detail (2.2.1.2.6)
2.3	06/02/2019	Yudy Yunardy	- Change Auction Detail to Auction Stock List (2.2.1.2.6) - Change and split Car Detail into Stock Auction Detail (2.2.1.2.7), Stock Detail (2.2.1.2.8) and Stock Inspection Detail (2.2.1.2.9) and add Kembali button into each screen
2.4	07/02/2019	Yudy Yunardy	- Fix screen element placement in Android Catalogue (2.2.1.2.1) - Add all-field mandatory notion in Pickup Request (2.1.1.2.1) and synchronize between Permintaan Penjemputan and Permintaan Penjemputan BPKB

<u>Version</u>	<u>Date</u>	<u>By</u>	<u>Change Summary</u>
			• Add rule for search result if keyword is null in Surat Perintah Pickup (2.1.1.2.3) • Add error/warning message in Nama Penjual field in Basic Car Data (2.1.1.2.6) • Add all-field mandatory notion in Create Auction (2.1.3.2.1) and Edit Auction (2.1.3.2.3) • Remove power search in stock list (2.1.3.2.4) because similar function is integrated in each column of the table • Add search capability in Web Auction Stock List and floating sort button in Android Auction Stock List (2.2.1.2.6) • Add Kembali button in Android Stock Inspection Detail (2.2.1.2.9)

1. Introduction

1.1. Purpose

The Purpose of this Document is to define the Use Case for CARReady Auction System, as a base document that can be used either by functional and technical team to know various use case flow that can be handled by this system.

1.2. System Summary

CARReady Auction System is car auction system for both online and offline users, where they can bid by raising their hand or online through website and mobile.

1.3. Convention

1.3.1. Field Type

Abbreviation	Description
TSL	Textbox Single Line
TML	Textbox Multiple Line
DDL	Dropdown List
CKB	Check Box
RDB	Radio Button
LBL	Label
DPL	Date Pick List 
SCH	Search 

1.3.2. Data Type

Abbreviation	Description
NUM (<length>,<decimal length>)	Numeric
APB (<length>)	Alphabet
APN (<length>)	Alphanumeric

DTE	Date
DTM	Date and Time

1.3.3. Field Status

Abbreviation	Description
M	Mandatory
O	Optional
D	Display
C	System calculated

1.3.4. Control Type

Abbreviation	Description
BTN	Button 
HYP	Hyperlink View Edit
TAB	Tab

1.4. Glossary

Group	Term	Definition
Business	Accounting Periods	A defined period of time whereby performance reports may be extracted. (normally 4 week periods).
Business	Bid Based Auction	auction that is finished when no new bid is coming
Business	Time Based Auction	auction that is finished when the time limit ends

Nomor Surat Jalan	CR232523a
Penjual	Ivan Mobil
Diterima oleh	Joko Sulistyo
Tanggal Serah Terima	23/12/2018
Lokasi Serah Terima	Jl. Manyar No 13, Cilincing, Jakarta Utara

Figure: (email) Pickup Confirmation

2.1.1.2.3. Surat Perintah Pickup

The screenshot shows a web application for 'CAReady' at the URL 'www.caready.co.id/admin'. The main title is 'Perintah Penjemputan Mobil'. There is a 'Menu' sidebar on the left. The main content area includes a search bar with 'Ivan Mobil' and a 'Cari Permintaan Penjemputan Mobil' button. Below this is a table with columns: No Permintaan, Penjual, Stok No, Plat No, Tipe Produk, Pabrikan, Tipe Model, Tahun, Status, and Pilih. The table contains three rows of data for Toyota Avanza vehicles. Below the table are pagination controls '<< 1 2 3 4 5 >>', a 'Hapus' button, a 'Cetak Perintah Penjemputan Mo...' button, and a 'Kembali' button. A red error message 'Tidak ada baris yang dipilih' is displayed below the print button. At the bottom, there is a form titled 'Harap masukan data PIC' with fields for 'Nama PIC', 'No HP', and 'No KTP', and a 'Print' button.

Annotations:

- textbox with autocomplete suggestion if Null and pressed Cari Permintaan Penjemputan Mobil, will return all seller

Annotations:

- on create screen this label is blank, on edit screen it will be shown stock id number
- jika keyword tdk ditemukan maka munculkan error : tidak ditemukan
- jika nama Penjual tidak diisi maka munculkan error : Nama Penjual diperlukan
- Branch name, pulldown menu, query from branch master.
- no polisi format change with no space: B2467TZL enforce by system without space
- save the input date and generate stock ID number if blank
- If checked, indicated that this is a salvage/accident car, Total inspection result would be F and no need to go to inspection list for inspector

Field Description

#	Field Name	Field Type	Data Type	Status	Values	Length	Form at	Description (DESC) Business Rules (BR)
1	Stok ID	LBL	APN	M		20		System generated, read only, unique alphanumeric for each item
2	Nama Penjual	TSL	APN	M		50		Autocomplete when user type in more than 3 characters, suggestion will be based on partial match in front, middle or last typed word. If no match it will show result "not found"
3	Nama Cabang	DDL	APN	M		50		Input branch name in dropdown list from branch master

4	Plat Nomer	TSL	APN	M		10		Input free text, user can input any keyword
5	Pabrikan	DDL	APN	M		30		Input maker in dropdown list from Maker master
6	Tipe Model	DDL	APN	M		50		Input free text, this value is referring to Type of car
7	Warna	DDL	APB	M		50		Input color of car. Dropdown list from exterior color master
8	Tahun	TSL	NUM	O		4		Exactly 4 digits
9	Transmisi	DDL	APB	O	A/T M/T Other	10		Input transmisi of car. Dropdown hardcode A/T or M/T or Other
10	Kapasitas Mesin (cc)	TSL	NUM	O		5		Input engine capacity of car
11	Bahan Bakar	DDL	APB	O	Bensin Diesel Hybrid Other	10		Input BBM of car. Dropdown hardcode Bensin/Diesel/Hybrid/Other
12	Odometer	TSL	APN	O		10		Input current odometer status
13	Note	TML	APN	O		100		Input note about car
14	Nomor Rangka	TSL	APN	O		50		Input nomor rangka
15	Nomor Mesin	TSL	APN	O		50		Input nomor mesin
16	STNK	DDL	APB	O		50		Input stnk ada/tidak ada
17	STNK EXP DATE	DPL	DTE	O		30		Input date exp
18	BPKB	DDL	APB	O		50		Input bpkb ada/tidak ada
19	Faktur	DDL	APB	O		50		Input faktur ada/tidak ada
20	KTP Pemilik	DDL	APB	O		50		Input KTP Pemilik ada/tidak ada
21	Kwitansi	DDL	APB	O		50		Input kwitansi ada/tidak ada
22	KEUR	DDL	APB	O		50		Input keur ada/tidak ada
23	KEUR EXP DATE	DPL	DTE	O		30		Input date exp

2.2.1.2.11. Set Proxy-bid

Tab1 Tab2 X +

www.caready.co.id

Article 1:(General Provisions)

1. CAREady (hereinafter "our company", "we", "us") will determine the "CAREady Service Terms and Conditions" (hereinafter "Terms of Service") and any other individual rules and bylaws such as the "CAREady Points Terms of Service" (hereinafter "individual agreements") that will apply to individuals using our company's auction and shopping proxy services (hereinafter "our service") operated by our company on <http://www.caready.co.id> (hereinafter "this site"). In the articles below, the Terms of Service and individual agreements are collectively referred to as the Terms of Service.

2. We reserve the right to change or specify new individual agreements at any such time as we deem necessary. In cases where the Terms of Service and individual agreements contain contradictory statements, individual agreements shall be preferentially applied. Individuals who wish to use our service acknowledge that using our service constitutes acceptance of both the Terms of Service and of any individual agreements, and accept that these apply collectively to all use of our service.

3. For individuals who wish to use our service, upon agreeing with our Terms of Service and registering on our site with the necessary information through our prescribed process, will qualify as a member (hereinafter "member") upon approval by our company.

4. Our terms and services will apply to all members, and all members are obligated to comply with the contents.

5. We are not liable for any damages or losses caused by violation of our Terms of Service.

6. We reserve the right to change, amend, or modify the Terms of Service at any time without prior notice. Any changes to our Terms of Service will take effect immediately once updated on our site.

2.3.1. Handover

2.3.1.1. Screen Flow

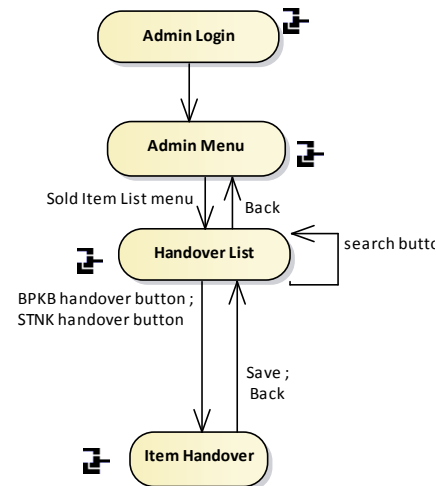

Figure: Handover Screen Flow

2.3.1.2. User Interface

2.3.1.2.1. Handover List

The screenshot shows the 'Daftar Penyerahan' (Handover List) interface. It includes a 'Menu' sidebar, a 'Header' section, and a main content area. The main content area has search filters for 'Penjual', 'Pembeli', and 'Cari'. A table displays the handover list with columns: Stok No, Tipe Produk, Plat No, Lelang, Lot, Penjual, Pembeli, Penyerahan Mobil, Penyerahan BPKB, and Unit Kembali. The table has rows for 'J2323', 'Row2', and 'Row3'. A 'Cari' button is next to the search filters. A 'Kembali' button is at the bottom right. Annotations include: 'For Return Unit Buyer will be blank' pointing to the 'Unit Kembali' column; 'When user double click the row it will go into car detail' pointing to a row; 'This is query from stock list, filter item status = SOLD or item status = UNSOLD EXIT' pointing to the table; and 'only shown after BPKB is available' pointing to the 'Unit Kembali' column.

2.4.1. Buyer

2.4.1.1. Screen Flow

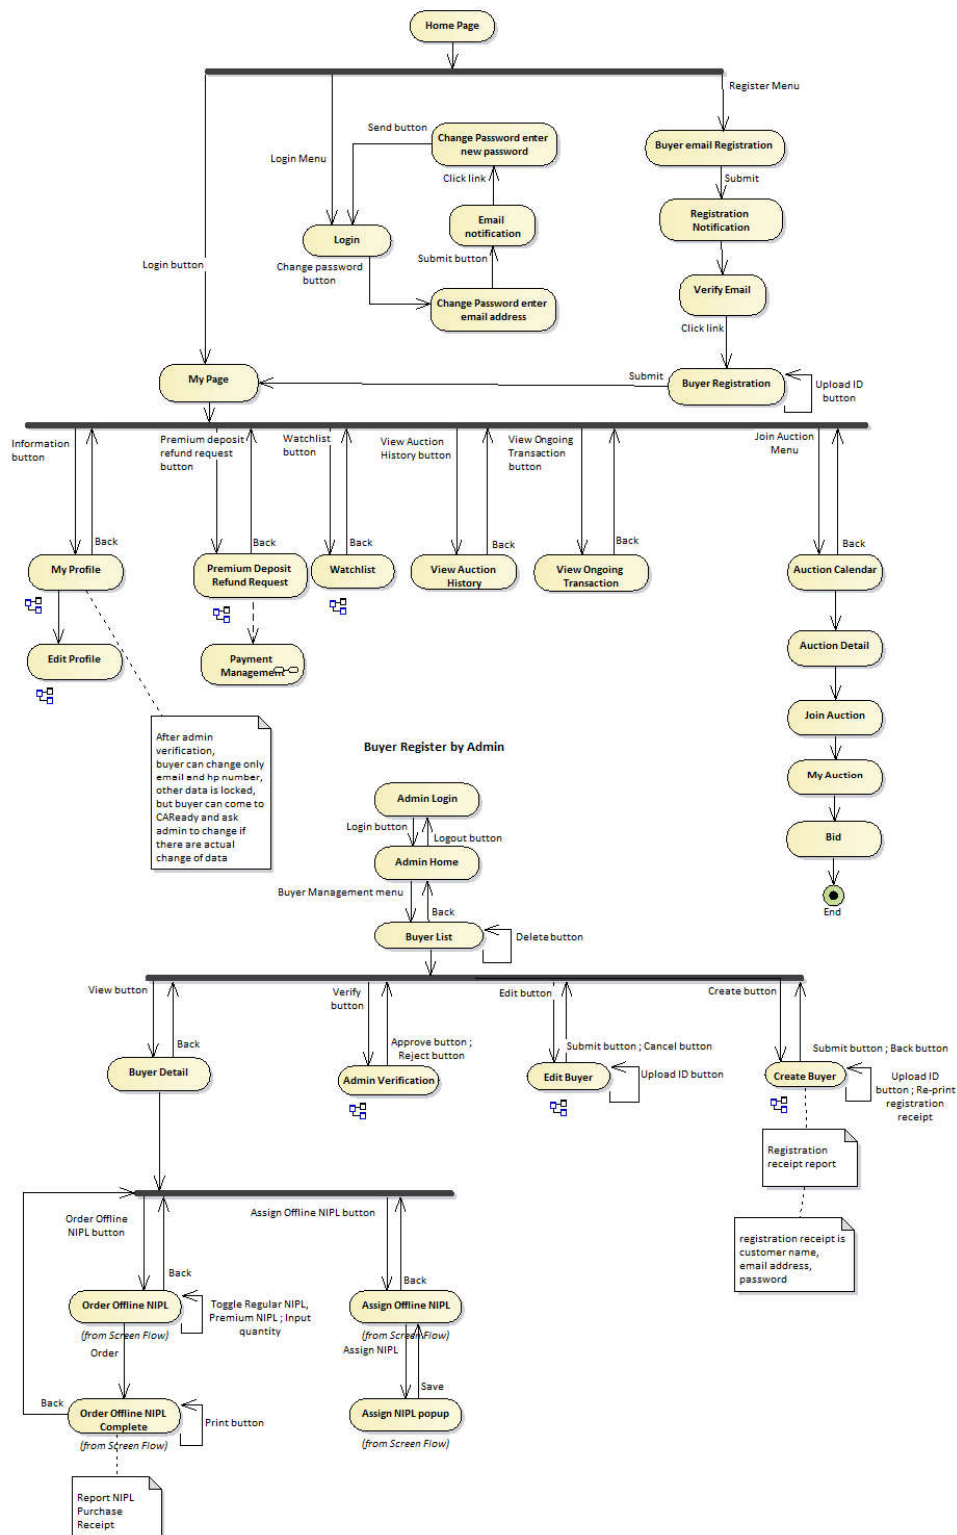

Figure: Buyer Screen Flow

2.4.1.2. User Interface

2.4.1.2.1. Buyer Registration

The screenshot shows a web browser window with two tabs. The address bar displays 'www.caready.co.id/buyer'. The page has a 'Header' section. Below it, the registration form includes fields for 'Nama*' (Name), 'Kata Sandi*' (Password), 'Email*', and 'Handphone*'. Each field has a red error message: 'Nama diperlukan !', 'Kata Sandi diperlukan !', 'Email diperlukan !', and 'Handphone diperlukan !'. Below these fields is a text area for 'Isi syarat dan ketentuan' (Terms and conditions) and two checkboxes: 'Setuju' (I agree) and 'Saya bukan rob' (I am not a robot). At the bottom are two buttons: 'Kembali' (Back) and 'Kirim' (Send). A callout box points to the 'Kirim' button with the text: 'When click submit, buyer flag ORIGIN = ONLINE'. Another callout box points to the 'Email*' field with the text: 'After submit system will sent email with verification link'. A third callout box points to the 'Setuju' checkbox with the text: 'blm perlu untuk add bank acc tp pas melengkapi data sesudah konfirmasi email harus masukin no acc bank guna nya untuk pengembalian deposit'. A fourth callout box points to the 'Saya bukan rob' checkbox with the text: 'Captcha. If user not click captcha login button is disabled'.

Figure: Buyer Registration (Desktop)

The screenshot shows the same Buyer Registration form on an Android mobile device. The form layout is adapted for the smaller screen. It includes the same fields for 'Nama', 'Kata Sandi', 'Email', and 'Handphone', each with a red error message. Below these is the 'Isi syarat dan ketentuan' text area and the 'Setuju' and 'Saya bukan robot' checkboxes. At the bottom are the 'Kembali' and 'Kirim' buttons. A callout box points to the 'Kirim' button with the text: 'After submit system will sent email with verification link'. Another callout box points to the 'Setuju' checkbox with the text: 'Captcha. If user not click captcha login button is disabled'.

- Alamat KTP: Text
- Current Address: Sama dg alamat KTP
- Alamat Email: Text
- Nomer Handphone: Text
- Nama Bank: Text
- Nama Cabang Bank: Text
- No Rekening Bank: Text
- Nama pada rekening: Text

Callout boxes provide additional information:

- A large box with a red 'X' is positioned next to the Kebangsaan* dropdown.
- A box states: "If Nationality = Other then text will be Passport Number" (pointing to the Tanggal Kadaluarsa KTP field).
- A box states: "Only email and hp number is editable by buyer from this screen" (pointing to the Alamat Email and Nomer Handphone fields).
- A box states: "mandatory to join an auction" (pointing to the Nomer Handphone field).

Buttons at the bottom: Unggah ID, Batal, Kirim.

Figure: Buyer Edit Profile (Desktop)

Business rule:

- If buyer change email address, change buyer status to unverified and send verification email to make sure new email is active
- If buyer is already verified and active, buyer can no longer edit KTP-related and Bank Account-related info. If buyer wants to change this info, they have to contact admin.
- Admin cannot change seller/buyer password, all password change must be done by customer via the forget password page.

2.4.1.2.7. Buyer Handover Status

The screenshot shows a web browser window with two tabs, Tab1 and Tab2. The address bar displays 'www.caready.co.id'. The main content area is titled 'STATUS SERAH TERIMA'. It contains a table with the following data:

No	Pabrikan Model Tipe Tahun	Plat No	Tgl serah terima	Tgl BPKB tersedia	Tgl serah terima BPKB
1	Toyota Avanza 1.3G 2012	B 1234 AA		15/11/2018	
2	Toyota Avanza 1.3G 2013	B2345 BB	30/09/2018	01/11/2018	05/11/2018

Below the table is a button labeled 'Kembali'.

Figure: Buyer Handover Status (Desktop)

2.4.1.2.8. Buyer Transactions

The screenshot shows a web browser window with two tabs, Tab1 and Tab2. The address bar displays 'www.caready.co.id'. The main content area is titled 'TRANSACTIONS'. It features a table with the following data:

No	Stok No	Pabrikan Model Tipe Tahun	Lelang	Status	Tgl Lelang	BPKB	No VA	Harga Terbentuk	Harga Awal	Biaya Penjual	Biaya Admin	Harus dibayar	Inv No
1	J1234	Toyota Avanza 1.3G 2012	Jakarta Car 00026	DIBAYAR	30/09/2018	No Kurir	BCA19349325	120.000.000	90.000.000	1.500.000	250.000	121.750.000	INV1234
2	J3235	Toyota Vios G 2010	Jakarta Car 00027	BLM DIBAYAR	10/10/2018		PRM23949523	110.000.000	95.000.000	1.500.000	250.000	111.750.000	

Below the table are two buttons labeled 'Kembali' and 'Unduh'. A tooltip is visible over the 'Status' column, stating: 'Status = Diterima, Blm diterima, terkirim kpd pembeli dg no kurir'. A search bar is located to the right of the tooltip.

- Admin cannot change seller/buyer password, all password change must be done by customer via the forget password page.

2.4.2.2.6. My Stock

The desktop interface for 'My Stock' displays a table of car inventory. The table has columns for No, Mobil, Plat No, Stok No, Tanggal Lelang, Lokasi Lelang, Status BPKB, Target BPKB hari, STNK Kedaluarsa, Jalur, Lot, Harga Permintaan, Harga Rekomendasi, Harga Awal, Harga Terbentuk, Status Pembayaran, and Status. Two rows of Toyota Avanza are listed. Above the table are search filters for 'Cari' and 'Cari'. To the right of the table are checkboxes for 'TDK TERJUAL' and 'TERJUAL', and a 'Text' input field. Below the table are buttons for 'Permintaan Penjemputan', 'Permintaan Pengembalian Unit', and 'Permintaan Pengembalian BPKB'. A 'Kembali' button is also present. A pagination control shows '1 ... 8'. Several callout boxes provide additional information: 'Click License Plate on each row will go to Inspection detail of the respective car (item)', 'up to 24 hours before auction, seller could input request for start price, request for start price locked 24 hours before auction', 'status = UNSOLD will be shown in this list but user can see all when using filter button', 'For unpaid car after 3 days, car will be ready for auction again, unpaid buyer will be deduct deposit or premium deposit, and AR issuance will be cancelled', 'Click each row go to car detail', and 'When Recommendation price is filled from Inspection Result, this button will appear for seller to confirm by fill in the request start price, then admin will input the start price'.

No	Mobil	Plat No	Stok No	Tanggal Lelang	Lokasi Lelang	Status BPKB	Target BPKB hari	STNK Kedaluarsa	Jalur	Lot	Harga Permintaan	Harga Rekomendasi	Harga Awal	Harga Terbentuk	Status Pembayaran	Status
1	Toyota Avanza G 2012	B 1234 AA	J003181020	25/10/2018	Jakarta	received		20/12/2018	A	8	80.000.000	70.000.000	75.000.000	82.000.000	TERJUAL	KELUAR
